Phone: 920-748-3275

I work to assist clients achieve their goals and aspirations with less stress and struggle. I bring a wide variety of tools to our coaching. These include: spiritual healing practices, active listening, appreciative inquiry, meditation, rituals and performance practices, including health and diet. Coupled with over 30 years work as an ordained minister and as a coach since 2015, I bring a unique experience of modern methods and traditional practices to our work together.
